

Sub F13. (Amended) The compressor of claim 6, wherein a magnetic  
piece is fitted into the recess portion provided at the bottom  
portion of the enclosed container.

---

Please add the following claim:

---

Sub F2 18. (New) The compressor of claim 7, wherein the magnetic  
piece is fitted on a convex portion of the bottom portion of the  
enclosed retainer, the convex portion projecting outwardly as a  
result of a concave in the recess portion.
